WALL STREET HONORS TO ST. PATRICK.

WEDNESDAY, Feb. 28-6 P. M. On 'Change to-day wheat was dull and heavy. The cotton market was unchanged.

MONEY STRINGENT.
The money market was stringent, and borrowers on stock collaterals were compelled to pay as high as 1-16 commission in addition to seven per cent the use of balances over night. The general business of the day on miscellaneous collaterals was at seven per cent, coin. The government and in exceptional instances had balances left with them at six. The stringency is generally credited to the locking up operations of speculators on the Stock Exchange, both "bulls" and "bears" being charged with helping it, the former wishing its agency in aiding them in perfecting certain clique plans now on foot.

Commercial paper was quoted 7 a 8% per cent discount for prime double names, Foreign exchange was lower in actual business,

but the leading bankers were not inclined to draw except at their full rates, the demand for March, in connection with the redemption of forty millions of public debt, being quite problematical.

GOLD LOWER-110% a 110%. The gold market was intensely dull, but in the early forenoon displayed some firmness and touched 110%. Later in the day the activity of the money market and the heaviness of sterling influenced weakness and a decline to 110%—the sellers being apprehensive of excessive rates for carrying tomorrow. The decline also reflects the preparation of the market for the heavy disbursements of coin by the Treasury in the ensuing month, when the forty million "called" five-twenties are to be re-Recent calculations render it probable that with the exchange which has been made of many of these securities for American railway bonds in the interval since the notice of redemption the actual amount required to pay off European holders will not be more than twenty-five to thirty millions, so that the operation will result in turning ten to fifteen millions of Treasury gold into the banks. The course of the market is shown in the table:-

GOVERNMENTS LOWER.

The decline in gold and the more active demand for money weakened the government list and induced a decline of about % per cent. Business here, as elsewhere, was light. STOCKS DULL AND LOWER. The stock market opened with a strong effort at buoyancy and activity, the early "card" being Erie, which advanced suddenly to 33 \(\frac{1}{2} \). In sympathy with a corresponding, if not greater, rise in Europe. But the movement rapidly subsided, and the market, after an improvement of 1/2 a 1/2 per cent, settled back into its chronic lethargy, finally becoming heavy with the scarcity of money, and closing at a decline of about 1/2 per cent. Western Union went off one per cent, taking the extremes of the day, and Hannibal and St. Joseph dropped to 38% for the common and 60 for the preferred. Were there any of the people of Liliput Lillput in Wail street nowadays, and desirous of speculating in stocks, the means could be afforded them ttesimal price of 1/4 a 1/4. As a looker-on remarked, the buyer of a hundred shares had a perpetual "put" for \$25. These low figures represent the gradual obliteration of Mariposa, which will be consummated with the close of this month, the holders of the mortgages having foreclosed their claims and taken possession of the property, creating a new corporation of nearly the same name, into which the holders of the old stock have the privilege of buying by surrendering their certificates and paying a cash assessment. This privilege, if not extended, will expire March 1, after which Mariposa, as known on the Stock Exchange for so

many years, will be of the past.

At the annual meeting of the stockholders of the Quickstiver Mining Company to-day, the following officers were unanimously elected for the ensuing year:-Directors:-Daniel Drew, Edwin Hoyt, Eugene Keily, of New York; George w. Butts, of Providence, R. L.; Ernest B. Lucke, Ludlow Patton, William Butler Duncan, James Low, James S. Thaver, James D. Smith and Edwin D. Stanton, of New York. At a subsequent meeting of the Board of Directors, Daniel Drew was elected President; George W. Butts, Vice President; James D. Smith, Treasurer, and David Mahany, Secretary.

THE PERILS OF THE SEA.

Story of a Shipwrecked Mariner of Newark. The Herald, under the head of its shipping news, first announced some three or four weeks ago the wreck of the schooner Connecticut, off Cuttybunk Reef, on the Massachusetts coast, on the night of January 22. It was then stated that the captain, F. Stephens, of Newark, was so badly frozen in the feet that it was leared amputation would have to be performed. A few days ago the captain so far recovered, however, as to be able to go home to his family, at 113 Jefferson street, Newark, after being absent since January 24. On that day he left Elizabethport with a crew of two men and numself and a load of pig iron, bound for Somerset, Mass. Fair winds and fine weather prevailed for the first few days, but on the 29th it commenced to blow a terrific gale. The vessel was lotally wrecked in it, and the crew rescued next morning by the lighthouse keeper. Here they received the kindest possible treatment. The captain was most seriously frostbitten. His suffrings and those of his men, as described by himself, were sufficient to move a stone to tears if possible. He says that the people of the island are a set of mean thieves, and stole nearly all the copper boits with which his vessel was fastened; but he excepts from this category the keeper of the lighthouse and one or two others, who treated him very kindly. The Connecticut was owned by Mrs. Stephens, the captain's wife, and a Mr. Charies Compton, and was worth \$5,000.
